CONTENTS - VOLUME XIII, 1991

No. 1

Biochemical perturbations of BW 91Y (3-deazaadenosine) on human neutrophil chemotactic potential and lipid metabolism.
SMITH D.M., JOHNSON J.A., TURNER R.A. 1

Modulation of serotonin-induced vasospasm by endothelium and monoamine oxidase.
MORCOS N.C., GRANDAW P.P., HENRY W.L., PURDY R.E. 19

Influence of 4-hydroxynonenal on bombesin-induced stimulation of phospholipase C activity in rat liver.
ROSSI M.A., GARRAMONE A., PARADISI L., FIDALE F., DIANZANI M.U. 27

Antidyslipaemic action and role of CoA in lipid metabolism of mitochondria and peroxisomes.
CONTE A., PALMIERI L., SEGNINI D., RONCA G. 33

Effect of propionyl carnitine on energy charge and adenine nucleotide content of cardiac endothelial cells during hypoxia.
BERTELLI A., CONTE A., PALMIERI L., RONCA G., SEGNINI D., YU G. 37

Protective effect of propionyl carnitine against peroxidative damage to arterial endothelium membranes.
BERTELLI A., CONTE A., RONCA G., SEGNINI D., YU G. 41

Effects of metoxibutropate, ibuprofen and guaiacol on the gastrointestinal system.
FOSSATI A., VIMERCATI M.G., BOZZI M., PASSAROTTI C., BANDI G.L., FORMENTI A. 45

Changes in parameters of the coagulation-fibrinolysis system and platelet function after OKY-046 administration to patients with ruptured aneurysm of the cerebral artery.
KOSUGI T., NAKAMURA M., SAITOH S., NOGUCHI S., SHIMOJI T., MINEI S. 51

No. 2

Dietary fat and experimental atherosclerosis.
KRITCHEVSKY D. 59

Hepatic dysfunction caused by dietary products of lipid peroxidation.
KANAZAWA K. 67

Lipid peroxidation in fatty liver induced by caffeine in rats.
DIANZANI M.U., MUZIO G., BIOCCA M.E., CANUTO R.A. 79

Relationships between obesity and ischaemic heart disease in type II diabetic subjects homozygous for the apoprotein E3 allele.
BOEMI M., ROMAGNOLI F., DE TOMMASO G., RICCIOTTI R., FUMELLI P. 87

Haemodynamic and metabolic effects of ketanserin in dyslipidaemic hypertensive subjects.
LETIZIA C., SELLINI M., SCAVO D. 91

Dietary treatment of dyslipidaemias.
STRATA A., ARSENIO L. 95

Comparative effects of two HMG-CoA reductase inhibitors (lovastatin and pravastatin) on serum lipids and lipoproteins.
RICHTER W.O., JACOB B.G., SCHWANDT P. 107

Coenzyme A and hyperlipoproteinaemias.
PERIN A., FRATICELLI G. 111

Lactobacilli in relation to human ecology and antimicrobial therapy.
LIDBECK A., NORD C.E. 115

No. 3

Changes of rabbit platelet function on simultaneous administration of ticlopidine hydrochloride and OKY-046.
KOSUGI T., NAKAMURA M., SAITOH S., KINJOH K. 123

Doxofylline differs from methylxanthines in its movement of cytosolic calcium.
FRANZONE J.S., CIRILLO R., REBOANI M.C. 131

Effects of vitamin D metabolites and bisphosphonates on fibronectin release from monocyte-derived macrophages.
MIAN M., ADAMI S., RIGO A., BONAZZI L., BRAGA V., LO CASCIO V. 139

Ultrastructural study of the initial phases of pancreatic carcinoma induced by BOP in the Syrian golden hamster.
MAR ABAD M., PAZ-BOUZA J.I., MUÑOZ E., CARRASCAL E., BULLÓN A. 145

Effects of repeated administration of low doses of cisplatin on the rat nervous system.
CAVALETTI G., PETRUCCIOLI M.G., TREDICI G., MARMIROLI P., BARAJON I., FABBRICA D., DI FRANCESCO A. 151

Breast cancer metastases of the urinary bladder.
RIGATTI P., BROGLIA L., MONTORSI F., MAFFEZZINI M., SIRONI M., RADICE F., ABELLI P., PACE M., DIAMANTINI S., VERONESI A.M., TRABUCCHI E. 159

No. 4

Matrix metalloproteases are involved in granuloma-induced cartilage degradation.
TRANCART M.M., CHALMEIGNE N., GIRARDOT C., ZARPANELIAN C., PRIGENT D. 165

A comparative study of the cellular, exudative and histological responses to carrageenan, dextran and zymosan in the mouse.
DAWSON J., SEDGWICK A.D., EDWARDS J.C.W., LEES P. 171

Some properties of the alkaline proteinase from *Aspergillus melleus*.
LUISETTI M., PICCIONI P.D., DYNE K., DONNINI M., BULGHERONI A., PASTURENZI L., DONNETTA A.M., PEONA V. 187

Effect of biological surfaces on neutrophil O_2^- production and its relationship to the CD11b/CD18 integrin-dependent adherence.
DRI P., CRAMER R., ROMANO M., SPESSOTTO P., PATRIARCA P. 193

Nycthemeral variations on LPS- and BCG-induced PMN migration in normal mice.
BUREAU J.P., GARRELLY L., VAGO P. 203

Effects of small-intestinal factors on hepatocyte development and modification of chemical agent-induced hepatopathy in rat.
TAKAHASHI N., OHNAKA S. 207

Prostacyclin release from endothelial cells, induced by defibrotide treatment, favours the function of grafted rat hearts and kidneys.
FERRERO M.E., MARNI A., SALARI P.C., SPAGGIARI P.G., GAJA G. 215

Are increased ATP blood levels responsible for PGI_2 release from endothelium?
SALARI P.C., MARNI A., PARISE M., CALVANI A.B., SPAGGIARI P.G., GAJA G., FERRERO M.E. 219

No. 5

Relationship between oxidative stress and hepatic phosphoglucomutase activity in rats.
KANAZAWA K., ASHIDA H. 225

Lipoprotein immune complexes as markers of atherosclerosis.
OREKHOV A.N., KALENICH O.S., TERTOV V.V., NOVIKOV I.D. 233

Potent collagenase inhibitors prevent interleukin-1-induced cartilage degradation *in vitro*.
NIXON J.S., BOTTOMLEY K.M.K., BROADHURST M.J., BROWN P.A., JOHNSON W.H., LAWTON G., MARLEY J., SEDGWICK A.D., WILKINSON S.E. 237

Piroxicam-beta-cyclodextrin: effects on gastrointestinal blood loss and gastric mucosal appearance in healthy men.
WARRINGTON S., DEBBAS N., FARTHING M., HORTON M., UMILE A. 243

Initiation of wound healing by proteinases released from damaged cells.
HATANAKA M., TSUBOI K. 249

Lyophilized type-I collagen and chronic leg ulcers.
MIAN E., MIAN M., BEGHÉ F. 257

No. 6

Mast cells as a source of superoxide anions and nitric oxide-like factor: relevance to histamine release.
MANNAIONI P.F., MASINI E., PISTELLI A., SALVEMINI D., VANE J.R. 271

GTP-related difference in cyclic AMP production between resident and inflammatory human peritoneal macrophages.
HOUDIJK A.P.J., VAN LEEUWEN P.A.M., ADOLFS M.J.P., BONTA I.L. 279

Cyclic nucleotides in human macrophages: effects of atrial natriuretic factor and nitroprusside on cGMP and cAMP production.
HOUDIJK A.P.J., ADOLFS M.J.P., VAN LEEUWEN P.A.M., BONTA I.L., DE JONGE H.R. 287

Effects of chronic prednisolone administration on plasma copper in rats with adjuvant arthritis.
FONTAINE J., PERETZ A., NEVE J., PELEN F., FAMAEY J.P. 295

Increase in "pain sensitivity" induced by exercise applied during the onset of arthritis in a model of monoarthritis in the rat.
BUTLER S.H., GODEFROY F., BESSON J.M., WEIL-FUGAZZA J. 299

Further evidence for the involvement of the diencephalo-dopaminergic system in pain modulation: a neurochemical study on the effect of morphine in the arthritic rat.
WEIL-FUGAZZA J., GODEFROY F. 305

Chondroprotective action of chondroitin sulfate. Competitive action of chondroitin sulfate on the digestion of hyaluronan by bovine testicular hyaluronidase.
BARTOLUCCI C., CELLAI L., CORRADINI C., CORRADINI D., LAMBA D., VELONÁ I. 311
